

## **Course Description**

Student Life is a required, year-long course for full-time OC Online students in middle school and high school. This course is not credit-bearing.

This course is designed to be a space for you to...

- **Receive Support:** Our Student Life Class is a place we can communicate-announcements, school happenings and experiences. Did you rock that project or ace your first mid-term? We'd like to hear that! Are you having a problem contacting your teacher? Unsure about what our academic integrity policy is? We can help with that too.
- **Stay Connected:** Making friends and hanging out in an online program can be a challenge. In this class you'll find several events, clubs, and other activities that will provide a setting for you to get to know your classmates, and build some high school and middle school memories. While these opportunities are optional, they are fun! Give them a chance. Many students have found their best friends here at Oaks Online. It really helps to stay open-minded and to remember the value of this time spent together. We're all busy, but taking time to build relationships is always worth it.
